Our gorgeous client, Karen, in the Daily Mail

After searching through the options available, Karen found she could afford to have surgery if it was performed abroad. Mrs Smith was concerned about the safety of the clinic, so she opted to start with a simple procedure, an Upper Arm Lift, at the Beauty in Prague Clinic in the Czech Republic.

Karen was so pleased with the results, she booked more surgery in the Czech Republic. In April 2013, she headed back to Prague for breast augmentation, uplift and corrective surgery to her thighs.

She said:

“I was impressed by how clean the wards were and the qualifications of the surgeons."

I have had surgery with Beauty in Prague four times and decided to come here because the Surgeons had extra qualifications than in the UK. I would recommend Beauty in Prague because they are professional, open and honest, and the cost is cheaper than the UK.

Beauty in Prague
Prague is the most sought-after DESTINATION FOR SURGERY

Journey to Prague
- Short flight: Only 1 hr 30 min from the UK and Ireland
- Inexpensive flights: from From £50/€60 for a return flight

Prague – in the Top 5 visited cities in the world
Thanks to the bohemian allure and fairy tale features, Prague was named the fifth best destination on Trip Advisor.

Privacy
Many of our clients prefer to undergo their operation abroad as they do not wish to be seen by their relatives during their recovery period.

The Czech republic – a member of the EU
As a member of the EU, we have to follow the same hygienic standards as the UK and Ireland.

The lowest MRSA rate in Europe
MRSA (methicillin resistant staphylococcus) rate in the Czech Republic is 6.2% which is one of the lowest in the EU. According to the report by the Antimicrobial Resistance Surveillance System the UK MRSA has been measured to be 44.5%, one of the highest in Europe.
We are committed to the highest standards of treatments and post-operative care.

Why Prague?

High Education of Plastic Surgeons

- Cosmetic surgery in the Czech Republic is strictly regulated by The Czech Medical Chamber.
- Surgeons in the Czech Republic are required to hold a relevant license from the Medical Chamber in order to perform such operations.
- To gain a licence a surgeon first must complete:
  + 6 years at medical school
  + 3 years of professional experience in a medical field
  + followed by 5 years at a certified department of cosmetic and plastic surgery.

IN TOTAL: 14 years of studying, working and final exams before gaining a licence as a plastic surgeon

* In the UK there is no mandatory requirement for specialised training and cosmetic surgery is often performed by general surgeons.
We provide a comprehensive and unique service in the area of cosmetic surgery and can tailor make a package for you in Prague focused on your specific needs.
